

**JUGEND**

# The Oder River needs protection.

The planned deepening and the associated construction measures of the Oder threaten rare floodplains, biodiversity, and natural river landscapes.

## WWF Youth is planning a canoe tour with two large Protests in the summer of 2026!

Join the tour in a two-person kayak: from Aug 22 to Sep 5, 2026, we will paddle 170 km from Frankfurt (Oder) to Szczecin (Stettin) – for a lively and unspoiled Oder River ...

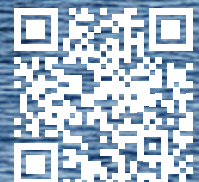

... or support the canoe protests – on the shore or on the water:  
August 22, 2026 in Frankfurt (Oder)  
September 5, 2026 in Szczecin (Stettin)

**Be part of it!**

Young people, schools, local groups, paddling communities, and anyone else who is interested are invited to join us on the tour and get involved.

**Together we will send a clear message: the deepening of the Oder has no social acceptance. Hands off the Oder!**
